

What type of person joins the Solid Axle Corvette Club?

The membership of the Solid Axle Corvette Club is a diverse group of car lovers who have one thing in common, a love for the earliest model Corvettes from the beginning in 1953 until 1962.

Some members have driver quality cars that might not be show quality but are just fun to drive.

Others may have original or fully restored award winning cars.

We also have members who own vintage solid axle race cars

Still others have "resto-mods". These cars combine the classic looks of a solid axle Corvette with the technology of the newest cars.

Some members have project cars they are restoring or are planning to restore.

Our club also has some members who are planning to buy of an early Corvette, and want to know more about these special cars.
